Second Term English Test

Class :

Name :

...../20

Text:

Dr.Noureddine Melikechi was born in 1958 in Thenia, Boumerdes, Algeria. After graduating from Thénia middle school, the young scientist left his town to Abane Ramdane High School in El-Harrach. Where he gained his Baccalaureate in Mathematics. He went to Houari Boumediene Sciences and Technology University of Algiers. He got a diploma of advanced studies in Physics. He went to end graduate work in England where he worked towards his Master's degree and PHD in the laboratory of Professor Leslie Allen.

After graduating and following a postdoctoral researches and experiences with Professor Allen, Melikechi moved to America in 1990 and joined a research group where he worked on laser. His recent research is focused on early detection of cancer and analyzing laser induced, dust and rocks down from Mars.

Dr.Melikechi received numerous prestigious awards like: "**Delware Ambassador to Mars**".In 2011, Delaware Jack Markell named Melikechi the "Delaware Ambassador to Mars" in recognition for his work on space science.
