

Massinissa School

Level : 2msy.....Second English Exam

Name : .....

Eating fruit keeps you healthy and fine. Fruit is rich in vitamins and fiber, and contains many minerals. It provides many carbohydrates to make energy, and doesn't have a lot of calories to make us fat.

Fruit also protect us from the risk of cancer, heart disease and high blood pressure. People use fruit for many things. We use it to prepare yoghurt, ice-cream, cakes and biscuits. We make jam, marmelade and sweets from it.

A lot of fruit are used to make different kinds of juice such as : orange juice. But most of the time, we prefer to eat it fresh, just as it is !
