The text:

Samir is 12 years old. He lives in El-Oued with his parents, but he was born in Algiers. Every morning, he wakes up at half past six. Then, he gets up after five minutes. He goes to the bathroom and brushes his teeth and has a quick shower. After that, he gets dressed, combs his hair and prays. He has his breakfast in the kitchen. He leaves the house at around 7:30 and walks to school. He arrives at school 15 minutes later. Classes start at eight o'clock. He is always punctual. He usually has his lunch in the canteen around 12: 15. Lessons finish at 3:55 and then he gets home.

In the afternoon, He does his homework. Sometimes he listens to some music or reads a book in his bedroom after that. He always has his dinner with his family at 8 o'clock. After dinner he usually watches TV and sometimes he goes out with friends for the evening but he is back home early because he has classes the next day. He goes to bed at around 10 o'clock, but before that he washes his face.
