

## Second Term English test

Full name:.....

Class: 5ap....

### Text :

### **Koalas**

Koalas are endangered species that live in Australia. They are famous for sleeping and relaxing. They are about 40 cm tall and weigh about 4–15 kg. Males are bigger than females. Koalas's favourite food is eucalyptus leaves, which are also their main source of water.

They have soft grey fur. Koalas can also sleep up to 18–20 hours a day in trees! Sadly, people are destroying their homes by cutting down trees. We must protect them and keep them safe because they are the cutest !

**Activity 1:** Answer the following questions.

1- What is the title of the text?

.....

2- Where do Koalas live?

.....

3- What's Koala's favourite food?

.....

4- How many hours can koala sleep?
